PROFESSIONAL SUMMARY

Computer Science Engineering (Data Science) graduate with a foundation in Java, Python, SQL, Object-Oriented Programming, and Data Structures & Algorithms. Gained practical exposure through software projects and internships involving backend development, web applications, data processing, machine learning, REST APIs, and software testing. Seeking an entry-level Software Engineer role with a primary focus on Java backend and software development.

TECHNICAL SKILLS

Languages: Java, SQL, Python, JavaScript

Core Computer Science: OOP, Data Structures & Algorithms, DBMS

Software & Backend: Java Backend, REST APIs, Git, Debugging

Data Science (Secondary): NumPy, Pandas, Scikit-learn, Machine Learning

PROJECTS

JavaPath Pro | Java, React.js, REST APIs, SQL, Authentication, Git

GitHub: github.com/UdayPatnala/Java-Path | Live Demo: <https://javapath-pro-aos.vercel.app/>

- Built an interactive Java learning platform supporting Java 17 code execution through the JDoodle API, user authentication, persistent learning progress, and REST API integration.
- Designed backend workflows for user management and progress tracking, implemented database operations, handled API errors, and tested application functionality.

Music Mirror | Python, React.js, REST APIs, Machine Learning

GitHub: github.com/UdayPatnala/music-mirror | Live Demo: <https://music-mirror-aos.vercel.app/>

- Developed an emotion-aware music recommendation application integrating browser-based facial expression analysis with recommendation workflows and persistent user preferences.
- Implemented frontend and backend integration, REST API data flows, application state management, and debugging across the application workflow.

Online Bookstore Backend | Java, Spring, REST APIs, Maven

GitHub: github.com/UdayPatnala/online-bookstore-backend

- Developed a Java-based REST API for an online bookstore, implementing backend workflows for managing books and user operations.
- Designed and tested API endpoints using positive and negative test scenarios, validating request handling, responses, and error conditions while identifying and debugging defects.

INTERNSHIP EXPERIENCE

Machine Learning Intern | Codec Technologies Pvt. Ltd. | Jun 2025 - Aug 2025

- Worked with Python, NumPy, Pandas, and scikit-learn for data preprocessing, data transformation, and baseline machine-learning workflows during an 8-week internship.

Web Developer Intern | Codec Technologies Pvt. Ltd. | Jan 2026 - Feb 2026

- Developed responsive web interfaces using HTML, CSS, JavaScript, and DOM manipulation during a 4-week internship.

EDUCATION

B.Tech in Computer Science Engineering (Data Science) | 2022 - 2026

Raghu Institute of Technology (Autonomous), Visakhapatnam, Andhra Pradesh | **CGPA: 7.70/10**

CERTIFICATIONS

[Programming in Java - NPTEL \(12 weeks, 2024\)](#) | [AWS Academy Cloud Foundations \(2024\)](#) | [Software Testing Masterclass - Udemy](#)

ACHIEVEMENT

Published "Smart Music Recommendation System Based on User Emotions," IJARESM, Vol. 14, Issue 3 (Mar 2026).
